AN IMMEDIATE SETTLEMENT FOR MICROSOFT IS IMPERATIVE!!!

My feelings right now is that Microsoft is being shafted and penalized for being a successful company by the Government (DOJ) as well as bunch of competitors that are seemingly not smart enough to be as good as Microsoft. They are trying to get some of Microsoft's smarts by filing lawsuits.

All of those ridiculer suits should be thrown out and so Microsoft can get on with it business of providing high tech software and hardware to the public.

I do not believe Microsoft is over prised as I have a lot of Microsoft software on my computer. My e-mail is not Microsoft but sure is not AOL and never will be!!
